Aspiring Software Engineer with a Focus on Innovation and Community Building

PROFESSIONAL SUMMARY

Detail-oriented Computer Science graduate with a solid foundation in software engineering and a strong alignment with Meta's focus on innovation and community-building. Experienced in web development using React and Python, with a passion for creating adaptive and user-centric solutions.

KEY HIGHLIGHTS

- Developed a Smart Resume Generator using React and Node.js, showcasing adaptability and technological innovation.
- Contributed to real-time event tracking portal using JS and Firebase, enhancing user interaction and engagement.
- Completed a Web Developer Internship at ABC Tech Solutions, building UI components and automating tasks.

SKILLS ALIGNMENT

- Primary: React, Python
- Secondary: C, C++, JavaScript, DSA, Web Dev
- Tooling: Git, Linux, VS Code

EXPERIENCE

Web Developer Intern — ABC Tech Solutions

Jun–Aug 2024

- Built modular UI components that improved website usability and reduced load times through automation.

Tech: React, JavaScript

PROJECTS

Smart Resume Generator

Developed an adaptive resume creator using React and Node.js.

- Enhanced resume customization capabilities, allowing for dynamic data integration and improved user experience.

Tech: React, Node.js, GPT APIs

Event Management Portal

Created a real-time event tracking portal to improve engagement.

- Implemented real-time updates, resulting in a 20% increase in user engagement and satisfaction.

Tech: JavaScript, Firebase

EDUCATION

B.E. in Computer Science — Global Academy of Technology

Not mentioned

- Achieved a CGPA of 8.4, with coursework focusing on software engineering and data structures.

CERTIFICATIONS

- Google Python Crash Course
- HackerRank Problem Solving (Intermediate)

TAILORING NOTES

- Culture Fit: Emphasize adaptability and eagerness to innovate, reflecting Meta's culture of openness and community-building.
- Interview Talking Points: Discuss experiences with React and web development projects.; Highlight the collaborative aspects of projects and any contributions to community-focused initiatives.
- ATS Keywords: UI/UX, design, prototyping, user research, React, Python
